BUSINESS RECOMMENDATION

- ❖ Consider Tanzania and Kenya Service charge
- ❖ Generate a way to know who the “Unknown sectors” are, they contribute more to the financial performance
- ❖ Look into why Total customer is 64k but, less than 4k Active customers
- ❖ Look into why Customers takes more than 2months before carrying out transaction after signup, might be network issues on the portal
- ❖ Foreign transaction is below average of local transaction, Consider the service charge.
